

# Re-accreditation visits 2017 – 1<sup>st</sup> briefing session

---

DR SIMON LAM

HONORARY SECRETARY

ACCREDITATION COMMITTEE

HONG KONG COLLEGE OF PAEDIATRICIANS

# Outline of presentation

---

Outline of paediatric training programme

Training and Assessment – future directions

Accreditation status of current training centres

Re-accreditation visits

Re-accreditation application/report forms – major changes

# Accreditation of training

---

Basic training programme – 3 years

Higher training programme – 3 years

Subspecialties:

- Adolescent Medicine
- Cardiology
- Clinical Genetics
- **Developmental and Behavioural Paediatrics\***
- Endocrinology
- Gastroenterology and Hepatology
- Haematology and Oncology
- **Immunology & Infectious Diseases\***
- Intensive Care
- Metabolic medicine
- Neonatology
- Nephrology
- **Neurology\***
- **Respiratory Medicine\***

*\*subspecialty board already established*

# Training and Assessment

---

# Re-vamping of specialty training and assessment

---

College is currently working on a re-vamping of our paediatric specialty training programme and assessment of trainees

Initial plan to focus on the higher training programme

Move towards work place-based assessment (“DOPS”, case-based discussion, ongoing feedback) or supervised learning events (“SLEs”)

Focus areas: clinical handover, advanced care planning/palliative care, communication skills

# Trainer/supervisor roles

---

Consider establishing “educational supervisors” to support and expand the role of the training supervisor in guiding the careers and overall educational plan of trainees

Will initiate train-the-trainer programmes to improve trainee supervision and training

Will use IT platforms to facilitate documentation of training/learning activities of trainees

Accreditation  
status of current  
training units

---

# Alice Ho Miu Ling Nethersole Hospital and North District Hospital

---

<u>Applied for</u>	<u>Teams</u>	<u>Re-accreditation</u>
General Paed	4	Apr 2012 (Visit) May 2013 (AC) Sep 2013 (Council)

(total = 4 teams)

# Caritas Medical Centre and Our Lady of Maryknoll Hospital

---

<u>Applied for</u>	<u>Teams</u>	<u>Re-accreditation</u>
General Paed	3	May 2012 (Visit) May 2013 (AC) Sep 2013 (Council)

(total = 3 teams)

## **Kwong Wah Hospital**

---

<u>Applied for</u>	<u>Teams</u>	<u>Re-accreditation</u>
General Paed	4	May 2012 (Visit)
Neonatology	3	May 2013 (AC) Sep 2013 (Council)

(total = 7 teams)

## Princess Margaret Hospital + Yan Chai Hospital

<u>Applied for</u>	<u>Team</u>	<u>Re-accreditation</u>
General Paed	3	Aug 2012 (Visit)
<i>(PMH/YCH =</i>	<i>2/1)</i>	May 2013 (AC)
Nephrology	1	Sep 2013 (Council)
Infectious Disease	1	
Neonatology	2	

(total = 7 teams)

## Prince of Wales Hospital

---

<u>Applied for</u>	<u>Teams</u>	<u>Re-accreditation</u>
General Paed	3	Jun 2012 (Visit)
Haem/Onco	2	May 2013 (AC)
PICU	1	Sep 2013 (Council)
Neonatology	3	

(total = 9 teams)

## **Pamela Youde Nethersole Eastern Hospital**

---

<u>Applied for</u>	<u>Teams</u>	<u>Re-accreditation</u>
General Paed	4	Jun 2012 (Visit)

(total = 8 teams)

## United Christian Hospital

---

<u>Applied for</u>	<u>Teams</u>	<u>Re-accreditation</u>
General Paed	4	Oct 2012 (Visit)
Neonatology	3	May 2013 (AC) Sep 2013 (Council)

(total = 7 teams)

# Re-accreditation visits

---

# Duties of the visiting team

---

Conduct field and ward visits

Interview

- COS and staff members
- Trainees individually (i.e., not in presence of senior staff)

Decide whether further data or re-visit is required before the routine 5-year visits

Decide whether or not to recommend training centre for re-accreditation

Complete Appendix II and re-accreditation report

# Visit structure

---

1. Training centres submit data to the visiting team via the Accreditation Committee
  - a) Deadline in Feb 2017 for training centres to be visited between Mar and May 2017
  - b) Deadline in Apr 2017 for training centres to be visited between Jun and Aug 2017
2. Visiting teams will:
  - a) Meet before the visit to decide whether further data are required and what to focus on
  - b) Visit the training centre
  - c) Complete Appendix II
  - d) Decide whether further data or revisits are required
  - e) Draft report for submission to the Accreditation Committee

Accreditation Committee and then Council will review report to decide upon re-accreditation

# Application & report forms

---

MAJOR CHANGES

# Preparation for visits and focus areas

---

1. Appendix I: Application for accreditation of Basic and Higher Training in General Paediatrics (to be submitted by the Hospital institution)
2. Appendix II: checklist for re-accreditation visits (to be filled in by visiting team)
3. Appendix III: letter from COS, summary return (to be submitted by Hospital/Institution)
4. Report on re-accreditation visit (to be submitted by visiting team members)

# Appendix I – projected data

Bed Types	2002	2007	2012	2017 <sup>†</sup>	2018 <sup>‡</sup>
ICU (subtotal)					
NICU					
PICU					
Nursery (subtotal)					
SCBU					
Postnatal					
General Paediatrics (subtotal)					
Paediatrics					
Adolescent					
Other Subspecialties (please specify) (subtotal): (e.g. Adolescent Medicine, Cardiology, Haematology/Oncology, Neurodevelopmental, etc.)					
_____					
_____					
_____					
* _____					
TOTAL NO. OF BED					

\* Indicates subspeciality newly developed (<3 years) in the unit.

<sup>†</sup>Jan to Mar 2017 or most recent three months available <sup>‡</sup>projected data after commencement of HKCH

# Appendix II (completed by visiting team) – new section

---

## Hong Kong Children's Hospital

### Trainees:

Do you think the commencement of the HKCH will affect your training?

How do you think the HKCH will affect your General Paediatric training?

### Trainers/Supervisor:

How will the commencement of the HKCH affect General Paediatric training at your department? Will the clinical workload, training exposure and number of teams be revised?

# Appendix III (letter from COS) – new section

---

## **Projected changes in Clinical Service/Training Module after the commencement of the Hong Kong Children's Hospital (HKCH)**

After commencement of HKCH there will be:

No significant changes of clinical service/training

Significant changes of clinical service/training

If affected, please summarise the details below and provide the relevant data on the Application form (appendix I):

# Questions?
