Message from the Editors

Towards the end of the year and this festive season, the editors would like to wish all members and fellows of the college a Merry Christmas and prosperous, healthy, safety year to come.

President's Speech at Conferment Ceremony on 2 December 2017

Professor Lau Chak Sing, Professor Sophia Chan, Professor Joseph Lau, Dr Lee Tsz Leung, Dr the Honorable Pierre Chan, Presidents and Office Bearers of Sister Colleges, Fellows and Members, Ladies and Gentlemen:

I welcome you warmly to our 26th Admission Ceremony for New Fellows and Members.

For our New Fellows and Members, this is the moment of joy, the moment to be grateful and lastly the moment for reflection.

Let me expand on these 3 moments in a bit more detail.

The moment of joy is not only because you have worked hard to achieve being recognized by your College and Academy with the fellowship and membership, but also the trust you have gained from your patients and colleagues. Indeed, trust is the key in our profession. We have discussed in our Training and Assessment Forum today on the way forward to introduce supervised learning events (SLEs) and entrustable professional activities (EPAs) as tools to build trust in the quality of our training.

As for the moment to be grateful, you have indeed many persons towards whom you should express your sincere gratitude. Many of them are here with you tonight, they include your parents, spouses, children, relatives and friends who have supported you during your many years of training. Of course you have to be grateful to your teachers.

Lastly this is the moment for you to pause and to reflect. To reflect on what kind of a paediatrician you want to be, what you can do to change our world to become a better place, what you want to work hard on and enjoy. In short, you have to know where you want to go.

As for us being your teachers, would just wish you the best and embark on your new journey with care and passion.

26th Annual General Meeting, Fellows Conferment Ceremony and Annual Dinner on 2 December, 2017

The 26th Annual General Meeting was held successfully on 2 December, 2017 at Pao Yue Kong Auditorium of the Hong Kong Academy of Medicine Jockey Club Building. The minutes of the 25th AGM held on 3 December, 2016 and of the EGM held on 14 May 2017 were endorsed.

For this year, there were five vacancies in the College Council. Notice of invitation of nominations for Council Members were sent to all Fellows on 5 September and as at close of nomination period on 3 October 2017, the College has received six nominations. An election was carried out through postal ballot, and Dr Chan Hin Biu Bill, Dr Cheng Chun Fai, Dr Lee Wai Hong, Prof Leung Ting Fan and Dr So Lok Yee were elected to be Council Members for the years 2017-2020. Mr Kenneth Sit and Walter Ma & Co. were re-appointed as the College's Honorary Legal Advisor and Auditor respectively for year 2018.

The 2018 subscription fees would remain as last year, i.e. HK\$2,100 for Fellows, HK1,050 for Overseas Fellows, HK\$1,400 for Members, HK\$700 for Overseas Members and HK\$700 for Associates. The subscription fee for paediatricians aged 65 or above before 1st January 2018 would continue to be waived.

The Annual General Meeting was followed by the Admission Ceremony of the New Members and conferment of New Fellows and First Fellows from 2 subspecialties, namely Paediatric Respiratory Medicine and Genetics & Genomics (Paediatrics).

The highlight of the day was certainly the Annual Dinner attended by more than 120 members of the College and guests. We are indebted to Prof Lau Chak Sing, President of the HK Academy of Medicine, Prof Sophia Chan, JP, Secretary for Food & Health of the HKSAR Government, Prof Joseph Lau Wan Yee, SBS, Chairman of the Medical Council of Hong Kong, Dr Lee Tsz Leung, Hospital Chief Executive of the HK Children Hospital, Dr the Honorable Pierre Chan, Honorable Member of the Legislative Council, the Presidents and representatives of Sister Colleges and statutory organizations who showered grace to our day's events with their presence and blessings.

With the New Year ahead, we look optimistically to the future of our College as we make bold strides on together. We would also take this opportunity to wish all College members and their families a Merry Christmas and a New Year full of joy and happiness.

Message from Hon Treasurer

Year 2018 Annual Subscription

It is time again to call for payment of the Hong Kong College of Paediatricians subscription for 2018. Please send in your cheque to the College for your annual subscription with fee structures as follows:

- (1) HK\$2,100 for Fellows
- (2) HK\$1,050 for Overseas Fellows who have applied for and been granted overseas status by the College.
- (3) Fellows, Members and Associates over the age of 65 before 1 January 2018 be exempted from paying their annual subscription fee (i.e. Date of Birth on or before 31 Dec 1952).
- (4) HK\$1,400 for Members

- (5) HK\$ 700 for Overseas Members who have applied for and been granted overseas status by the College.
- (6) HK\$ 700 for Associates

Please make your cheque payable to “**Hong Kong College of Paediatricians**” and send it to me at the following address **on or before 31 January 2018**. To facilitate our sending a receipt to you later, please also have **your full name, address and telephone number** quoted at the back of the cheque.

Dr Lau Wai Hung
Honorary Treasurer
Hong Kong College of Paediatricians
Room 801, Hong Kong Academy of Medicine Jockey Club Building
99 Wong Chuk Hang Road
Aberdeen, Hong Kong

May we take this opportunity to wish you Merry Christmas and a Happy New Year!

New Charges for Reissue of Copies

Please kindly take note of the below new charges of reissue of copies with immediate effect.

		New Charges
1	Reissue <u>copies</u> of Exam Fee Receipts:	\$500
2	Copies of Official Receipts on College’s Annual Subscription fee	\$500
3	Copies of Subspecialty Certificate / Admission Letter for First Fellow	\$500
4	Copies of Official receipt of the mandatory course organized by College	\$500
5	Re-write cheque to course instructors who fail to deposit the cheque within 6 months	\$500
6	Prospective approval such as Electives need 3-month before the commencement of training to submit requested documents for AC to vet and assess the case. Those who fail to follow the said rule will be charged	\$1,500

Membership Committee

The following doctor was approved to join the College as Associates.

1. LO Kin Ting
2. WONG Lok Hei
3. YAU Tsz Yan

The following doctors were recommended for elevation to Membership.

1. CHAN King Ho
2. LAM Ying Yin
3. LAW Lok Kei Rocky
4. LIU Ka Yee
5. NGAI Noelle Anne
6. POON Jennifer Yuen Ying
7. SHI Zhuo

Professional and General Affairs Committee

PGAC has recently published “**Update on *Helicobacter pylori* Infection in Children**” by Dr. Sham Chak On Philip.

The article is archived in our College website named “Update Information on Clinical Practice” under “Publications”.

[http://www.paediatrician.org.hk/index.php?option=com_content&view=article&id=205&Itemid=121file:///C:/Users/user03/Downloads/Update%20on%20Helicobacter%20pylori%20Infection%20in%20Children%20%2029.11.2017%20\(4\).pdf](http://www.paediatrician.org.hk/index.php?option=com_content&view=article&id=205&Itemid=121file:///C:/Users/user03/Downloads/Update%20on%20Helicobacter%20pylori%20Infection%20in%20Children%20%2029.11.2017%20(4).pdf)

We hope you will find this update interesting and helpful to your Clinical Practice. Feedbacks are most welcome.

We would like to sincerely thank Dr. Sham Chak On Philip for his contribution in providing this update and express our great gratitude to The Hong Kong Society of Paediatric Gastroenterology, Hepatology and Nutrition (HKSPGHAN) as reviewer.

E-publication on Breast-feeding from Baby Friendly Hospital Initiative Hong Kong Association

The Baby Friendly Hospital Initiative Hong Kong Association (BFHIHKA) was set up in 1992 with the support of the Hong Kong Committee for UNICEF, to promote and support breastfeeding in Hong Kong. Its main tasks include informing health professionals and the public about matters related to breastfeeding and facilitating the designation of Baby Friendly Health Facilities in Hong Kong.

Since April 2017, the BFHIHKA has been publishing 4 series of e-Newsletters targeting different reader groups, including frontline health professionals looking after mothers and babies and the hospital management. You may find the information in these newsletters useful for your practices. Details please visit:

Scientific & Research Subcommittee

Announcing the 2017 Best Dissertation Prize and 2017 Best Young Investigator Prize winners

We are pleased to announce the recipients of the following prizes.

The 2017 Best Dissertation Prize:

- Dr YU Kwong Man (QMH) for the paper entitled “*Left Ventricular Stiffness in Adolescents and Young Adults with Repaired Tetralogy of Fallot*”

The 2017 Best Young Investigator Prize:

- Dr CHUNG Hon Yin Brian (QMH) for the paper entitled “*Use of clinical chromosomal microarray in Hong Kong Chinese patients with autism spectrum disorder – implications of a copy number variation involving DPP10*”

These prizes recognize excellence in research and scientific studies by our young colleagues. Congratulations to our 2017 winners! These prizes were presented at the College Annual Dinner on 2 December 2017.

Committee for Subspecialty Boards

The subspecialty of Genetics & Genomics (Paediatrics) [GGP] was accredited by Hong Kong College of Paediatricians and recognised by the Hong Kong Academy of Medicine in July 2017 and September 2017 respectively. The Medical Council of Hong Kong has created a GGP Specialty in the Specialist Register (S61) in November 2017.

The College would like to take this opportunity to congratulate the following colleagues who were certified as First Fellows in Subspecialty of Genetics & Genomics (Paediatrics) [GGP] at Council Meeting on 13 September 2017:

1. Chong Shuk Ching, Joseph
2. Chung Hong Yin, Brian
3. Lam Tak Sum, Stephen
4. Lo Fai Man, Ivan
5. Luk Ho Ming

Date: 7 November 2017

Call for Application of First Fellows of the Subspecialty of Paediatric Endocrinology (PE)

To All Fellows of Hong Kong College of Paediatricians

Please read this IMPORTANT announcement about the Accreditation of the Subspecialty of **Paediatric Endocrinology**, and the call for application of FIRST FELLOW.

The Hong Kong College of Paediatricians recognized the importance of developing various subspecialties to streamline tertiary and quaternary paediatric practice and to prepare for the establishment of Hong Kong Children's Hospital. Through the effort of the Working Group for the Accreditation of Paediatric Subspecialties in Hong Kong, which was continued by the Committee for Subspecialty Boards, the College has established a fair and open mechanism for accreditation of subspecialties.

The College has received an application for the accreditation of the PE subspecialty. After a period of open consultation to all Fellows and careful consideration by the Committee for Subspecialty Boards and the External Assessor, the final version of the proposed PE Subspecialty Programme was submitted. Now the Committee has recommended and College Council has agreed to start the formal process of accreditation. Fellows can access the full set of PE accreditation documents on College Website – Subspecialty Section – Paediatric Endocrinology.

The whole process will be stringent and subject to scrutiny by an independent overseas expert in the field and the Hong Kong Academy of Medicine. It will result in the setting up of the relevant Subspecialty Board, training and accreditation guidelines, training programmes with accredited training centres and trainers. Future trainees will have to go through such a training programme before being recognized as a subspecialist. For the name of subspecialist qualifications and quotability of such qualifications, you are invited to read the attached **Appendix 1** on “Frequently asked questions on quotability of First Fellow of a Subspecialty”.

Colleagues who are interested to apply to be First Fellows are advised to read **Appendix 2** on “Administrative principles for the admission of First Fellows to the PE subspecialty”. However this document lists only the general principles and the final decision of admission will be made by the External Assessor and the Assessment Committee after an Interview Assessment.

To start the accreditation process, the College would like to call for applications from all Fellows interested in being accredited as First Fellows in the PE Subspecialty. According to the Guideline of Hong Kong Academy of Medicine, and as shown in **Appendix 2** on “Administrative principles for the admission of First Fellows to the PE subspecialty”, College will cease admitting First Fellows after the “cutoff date” (i.e. the date when the formal Training Programme starts). The Subspecialty Board will decide this date of starting the formal Training Programme within 24 months of formal approval of the Subspecialty by the Academy. We estimate that the cutoff date for PE Subspecialty will be about 2 years after the deadline stated below. Fellows who consider themselves eligible for First Fellows admission,

or for joining the Remedial Programme for First Fellows, within this time frame should also respond to this Call, if they wish to be considered for admission. **Because the accreditation process involves inviting an External Assessor to Hong Kong to conduct the Interview Assessment, no application after the deadline stated below will be accepted. There will NOT be another Call for Application in future.**

The First Fellows Application Form is attached. To enable financial viability of the Subspecialty, the College has decided to levy a non-refundable First Fellows Application Fee of \$3000 for each application. A further First Fellows Admission Fee of \$7000 is applicable for each successful application and admission of First Fellow in the Subspecialty.

Interested Fellows please submit the following to the College Honorary Secretary at Room 801, Hong Kong Academy of Medicine Jockey Club Building, Wong Chuk Hang Road, Hong Kong **on or before 17th January 2018:**

1. The First Fellows Application Form (which should be duly signed);
2. Documentary evidence of your supervised training (please give reason if not available);
3. A brief curriculum vitae highlighting your relevant subspecialty experience; and
4. A cheque of \$ 3000 (payable to “Hong Kong College of Paediatricians”).

If you are interested to know more about the process of subspecialty accreditation, please contact the College secretariat at enquiry@paediatrician.org.hk for more information.

Dr Chan Chok Wan
Director of Subspecialty Boards

Appendix 1: Frequently asked questions on quotability of First Fellow of a Subspecialty.

Appendix 2: Administrative principles for the admission of First Fellows to the PE Subspecialty Application Form for First Fellows of the Subspecialty of Paediatric Endocrinology.

Frequently Asked Questions on Quotability of First Fellow of a Subspecialty

Frequently encountered questions	Latest reply by HKAM in Oct 2010:
If our Fellow has completed training in both General Paediatrics and a paediatric subspecialty e.g. paediatric cardiology:	
1. At the level of Specialist Registry, he/she can choose to be included in either the register of Specialist in Paediatrics or Specialist in Paediatric Cardiology, but not both. Is this true?	<i>Correct</i>
2. He/she can change between the two registries at any time. How often can he/she change registries?	<i>Any doctor can apply to MCHK to change specialty in Specialist Registry, but he would need to be removed from the registered specialty first before he can be entered for a new specialty. I am not aware of any time restriction. But it normally takes a few months for the process, as MCHK would need to check with HKAM whether the Fellow/doctor is eligible for the specialty being applied (we have to go through HKAM Council), then MCHK has to go through the EAC and MCHK main Council.</i>
3. At the Academy Fellowship level, he/she will only be awarded one Academy Fellowship – i.e. FHKAM(Paediatrics). Is this true?	<i>Correct. At the Academy, we only have 15 types of Fellowship.</i>
4. Will the Academy award double Academy Fellowships e.g. FHKAM(Paediatrics) and FHKAM(Paediatric Cardiology)?	<i>No. Double Fellowship is possible only for “cross-college” Fellowship, as mentioned above we only have 15 Fellowship at the Academy level – one for each College.</i>
5. At the College Fellowship level, can the College award double Fellowships to this Fellow – i.e. both FHKCPaed and FHKCPaed (Paediatric Cardiology)?	<i>It is up to your College to decide, as long as your constitutions allow it. Additional comments: Before a new specialty can be included in SR, the specialty must be approved by the Academy EC. After HKAM Council endorsed the new specialty, Academy would write to MCHK to recommend including the new specialty in the SR.</i>

The College has recommended the term “Board Certified in [Subspecialty]” for newly accredited Fellows in the Subspecialty. Is this title quotable?

The quotability of a professional qualification is decided by the Medical Council of Hong Kong, basing on 1) at least 6 months of full time structured and supervised training or study; and 2) formal assessment by a recognized medical body or independently vetted (e.g. external examiner) by a recognized medical body. It is unlikely that a First Fellow can quote this title because he/she did not undergo an examination to get such a degree. However, College may apply for quotability for future graduates who have undergone the formal training programme and Board examination.

Hong Kong College of Paediatricians

Administrative Principles for the admission of First Fellows to the Subspecialty of Paediatric Endocrinology (PE)

1. Application for First Fellows will be opened on receiving the proposal of establishment of the PE subspecialty. All potential candidates are kept informed of the progress of accreditation. First Fellows will be admitted only after approval of the Subspecialty by the Hong Kong Academy of Medicine (HKAM).
2. The College will cease to admit First Fellows once the PE subspecialty Training Programme starts (the cut-off date), which should be no later than 24 months from the date of approval of the PE subspecialty by the HKAM.
3. All First Fellows must have Fellowship of FHKAM(Paediatrics) AND FHKCPaed.
4. All First Fellows must have the following subspecialty training:
EITHER
 - 4.1. He/she has undergone supervised training in PE for 3 years in an overseas centre recognised for PE training by the professional college/authority in that country;
OR
 - 4.2. He/she has *a period of full-time supervised training (which should normally be not less than 6 months) in a recognized centre*. In addition, the shortfall of the 3 years of the stipulated accredited subspecialty training programme should be *made up with a period of Good Independent Practice (GIP) in that subspecialty* of twice of the shortfall duration required to complete the 3 years accredited training programme.
5. To fulfil the criteria of “supervised training” in section 4.2, the period should satisfy ALL of the followings:
 - 5.1. Training in all areas listed as mandatory modules in the PE subspecialty curriculum can be counted towards the 6 months “supervised training”. However, the PE subspecialty core curriculum must account for a majority of the claimed “supervised training” period. Thus if an applicant claims the minimum of 6 months of “supervised training”, training in PE core curriculum should be more than 3 months. Training in other mandatory modules can be counted to a maximum equal to the duration of the mandatory modules in the future training programme, but limited to less than half of total claimed supervised training.
 - 5.2. A recognized centre is defined as either an overseas centre recognized or accredited for training in PE by the professional college/authority in that country; or a local centre that is a fully accredited training centre of the future PE subspecialty Training Programme.
 - 5.3. For local centres, the candidate must prove that he/she is serving full time in the Subspecialty Team in that centre. The maximum period of supervised training recognized for local centers will be 6 months.
6. To fulfil the criteria of “Good Independent Practice (GIP)” in section 4.2, the period should satisfy sections 6.1 and 6.2.:
 - 6.1. The assurance of the standard and quality of the GIP in GG[P] should be supported by documentation of the following activities during the claimed period:
 - the clinical workload in PE (cases managed, procedures performed). [pending External Assessor’s input on any mandatory procedures or skills for PE] AND
 - relevant educational activities, such as conferences participated; AND
 - relevant research and publications; AND
 - participation in relevant professional bodies; AND
 - teaching in the relevant fields

Note:

- a) The period of GIP will be counted from the time an applicant is eligible to obtain the Fellowship of the Hong Kong College of Paediatricians (count from the month after passing Exit Assessment to the month before the First Fellow Interview Assessment).
 - b) One cannot claim GIP in more than one Subspecialty simultaneously during any one period.
 - c) One can claim GIP in different Subspecialties in sequential periods of one's career. Implications are that one can be First Fellows in more than one subspecialty if one has adequate separate supervised training/GIP in the subspecialties.
 - d) College should be satisfied of a First Fellow's competency at the time of admission. Therefore the applicant should be in active practice in the subspecialty (as determined by the Assessment Committee) up to the time of application for First Fellow accreditation.
 - e) The GIP is not restricted to practice within accredited institutions. However, a significant proportion of his/her practice should be in the subspecialty. The nature and amount of practice qualifying for GIP will be determined by the Assessment Committee.
 - f) GIP period will be counted up to three months before the cut-off date. The Assessment Committee takes approximately 3 months for completing the endorsement procedures of admission of a First Fellow by the College and then the HK Academy of Medicine.
7. All First Fellows will have to pass an assessment by the College. The assessment shall be based on criteria comparable to that required for Fellowship in the new subspecialty obtained via the approved formal training programme. The assessment will be conducted by the Assessment Committee of the Hong Kong College of Paediatricians in conjunction with an External Assessor appointed by the College.
8. For those Fellows who have acquired substantial subspecialty experience but who have not met the Admission Criteria as stated in paragraph 4 above at the cut-off date, there is a special one-off arrangement (of Remedial Training Programme) for them to become Fellows in the new subspecialty provided they have fulfilled all of the following conditions, namely that they:-
- a) have already fulfilled *at least 75%* of the requirement as stated in paragraph 4.1 or 4.2 above, whether in terms of the duration of good independent practice and experience required by the College, at the cut-off date as stated in paragraph 2;
 - b) have registered with the College on or before the cut-off date of their intention to follow this special one-off arrangement;
 - c) will undergo a supervised training programme, in College accredited training centres, to make up for the shortage of period of "supervised training" or "good independent practice" requirements as stated in paragraph 4.1 or 4.2 above. All make-up programmes must be completed before the First Exit Examination takes place.
 - d) have to pass the normal Exit Examination of the subspecialty.
College will submit a list of these College Fellows to the Academy within 1 month after the cut-off date. The provisions under this one-off arrangement cease to be in force once the Exit Examination of the subspecialty has been in place.
