## Message from the Editors

Two important college events are coming soon, namely the annual social function and the annual general meeting, fellows conferment and dinner. Read on for more details.

## BIG day on 2 December 2012 (Sunday) - Annual General Meeting, Fellows Conferment Ceremony cum Annual Dinner

You may think this is just another one of those regular events at the end of each year. Yet, on 2 December, the College Council is bringing you another highlight of the BIGGEST event of each year after the fantastic 20th Anniversary Celebration our College last December. We are combining work and fun, tradition (carried forward by our College founders) and new impacts (from our upbeat young members) all in one melting pot.

The busy day starts at 3pm with the Paediatric Update Series on Paediatric Neurology, followed by the AGM, Admission Ceremony of the New Members and Fellows. One very special event of this year's Ceremony is the Admission of New Subspecialty Fellows. As our College has formally started Subspecialty Accreditation, twelve First Fellows in Paediatric Immunology and Infectious Diseases will make history on this date. They will each receive an impressive and hard-earned certificate. Much is surely looked forward to in the coming years when more subspecialists will receive the certificates in their accredited fields.

The highlight is always the Annual Dinner. New Members, Fellows and Subspecialists and their spouses are cordially invited. We all, of course, shall treasure this golden occasion to have a good meal with friends in the College community. At \$150 each person, it's too good to be missed. So, please invite your beloved family and your colleagues to join the great event!

## Congratulations and Celebrations

Prof Louis Low and Prof PC Ng received the Outstanding Asian Paediatrician Award 2012 at the 14th Asia Pacific Congress of Pediatrics, held at Kuching, Malaysia on 8-12 Sept 2012. The Award was given by the Asian Pacific Pediatric Association in recognition of their outstanding contributions in the field of Paediatrics.

Our heartiest congratulations to Prof Low and Prof Ng! Time to celebrate!

# **Annual Social Function 2012**

## **Chinese White Dolphin spotting and Tai O**

沙洲、龍鼓洲海岸公園中華白海豚觀賞及大澳之旅

The College Social Function will take place on **11 November 2012, Sunday**. It will be a whole day launch tour departing from Tsuen Wan to the dolphin watching areas in ShaChau and Lung KwuChau Marine Park, followed by lunch and sights of culture and ecology in Tai O.

Please refer to the itinerary, lunch menu and reply slip attached for details (appendix 1). Places are limited to 50 and registration is on first-come-first-served basis. Please send the reply slip to the College by fax 2785 1850 or by email: enquiry@paediatrician.org.hk followed by your cheque payment.

Deadline for registration is **19 October 2012**.

## **Announcement from Hong Kong College of Paediatricians Foundation**

A preparatory visit to Nanning, Guangxi Province for the coming NRP course organized by the HK College of Paediatricians foundation, is scheduled from 20-23 October 2012. Members or Fellows of the college are welcome to join.

## **Announcement from Education Committee**

### **2012 Paediatric Update No. 3**

The Paediatric Update No. 3 seminar on **Topics in Paediatric Neurology** is scheduled to be held at the **HK Academy Medicine Building on Sunday afternoon, 2 December 2012**, immediately preceding the College AGM. There will be review lectures on acute disseminating encephalomyelitis & related inflammatory diseases of the central nervous system, infection-related encephalopathies, and case presentations on acute necrotising encephalopathy and anti-NMDA-receptor antibody encephalitis. We look forward to your support and participation in this College CME activity. (For programme details and registration, please refer to appendix 2)

### **Child Protection Course**

The College will be conducting the 6th Child Protection Course on Saturday, 17 November 2012. It will be a whole day training course consisting of role-play, lectures and class discussions. Associates, Members and Fellows of the College are welcome to apply. Trainees are especially encouraged to apply early since the course has become a mandatory requirement for the Paediatric Fellowship curriculum. Application is now open until **22 October 2012**. Application form and announcement poster are attached (appendix 3) for your information.

### **Neonatal Resuscitation Program (NRP)**

The Neonatal Resuscitation Program Provider Courses, organized by the Hong Kong College of Paediatricians, The Hong Kong Society of Neonatal Medicine and the Hong Kong Paediatric Nurses Association, were fully booked in 2012. The Courses in January to March, 2013 are now open for enrollment.

The course member needs to study the NRP Textbook and complete the online examination before they could participate in the one-day (usually Sunday) practice and stimulation training program, when they will have the opportunity to interact with paediatric doctors, paediatric nurses, nurse midwives, A&E colleagues and other healthcare professionals from the HA and private hospitals. Team collaboration and dynamics are emphasized. The instructors are AAP Regional Instructors with ongoing newborn deliveries experiences. The course fee is HK\$2,000, covering the textbook, online exam and practicum.

We are also recruiting potential NRP Instructors. Please kindly nominate senior medical and nursing colleagues from your department who are working in the neonatal wards with ongoing newborn resuscitation experiences if they are interested to become AAP NRP Instructors. They have to take the Provider Course, act as Instructor Associates in two practicum days and take the AAP NRP Instructor Training Course to become qualified.

Subject to endorsement by the Hong Kong Academy of Medicine, the NRP Provider Course will become mandatory for the trainees joining the College from July 2013 onwards.

Please refer to appendix 4 for the application material.

## **Announcement from Examination Committee**

Kindly note that these dates may be subjected to change. Please visit the College website to check for the latest examination announcement nearer to the time.

### **Order of taking written examinations**

From 2013 the written papers can be taken in the candidate's order of preference. Candidates may choose to apply for Foundation of Practice, Theory & Science of Practice or Applied Knowledge in Paediatrics as their **first** MRCPCH exam. But the MRCPCH Clinical Examination can be taken only until all written components have been passed.

### **7-Year to complete all MRCPCH examinations**

All RCPCCH exam candidates are locked into a **7-year** registration period **to complete** all of the components (**written AND clinical**) of their chosen exam route. For the MRCPCH the 7-year registration period begins from the date the candidate passed the first written exam. This could be any of the written exam components, which include Foundation of Practice, Theory and Science of Practice or Applied Knowledge in Paediatrics.

For the DCH, the 7-year registration period begins from the date that the candidate has passed the written component of the exam.
