Message from the Editors

As we welcome the Year of the Dragon, on behalf of the House Committee, we would like to wish everyone a prosperous and healthy new year.

Standing Committees for 2012 – 2013

In this issue of the newsletter we have provided information on chairpersons and members of the various Standing Committees for 2012 - 2013. The College council expresses sincere thanks to all outgoing committee members. Their support has contributed to the success of the College in the past few years.

Primary Care Directory and Invitation to Enrol

The Primary Care Office of the Department of Health recently announced new changes in the Primary Care Directory and is inviting practitioners providing directly accessible, comprehensive, continuing, co-ordinated and person-centred primary care services to enrol in the Directory. Appendix 1

19 January, 2012

New features of the Primary Care Directory & Invitation to enrol in the Primary Care Directory

Primary Care Directory

The Primary Care Directory is a web-based directory containing personal and practice-based information of different primary care providers to help the public find their own primary care providers. The Directory is being developed in phases, starting with sub-directories of doctors and dentists, followed by sub-directories of other primary care providers.

Registered doctors and dentists with self-declared commitment to the provision of directly accessible, comprehensive, continuing, co-ordinated and person-centred primary care services are eligible for enrolment in the Directory.

The Directory was launched to the public in April 2011. The public can now access the Directory website to find family doctors or dentists that are suitable for them.

New features of the Directory starting from January 2012

A number of new features have been added to the Primary Care Directory this year as follows:

More information available to the public

- Personal photo can now be uploaded and to be seen by the public in the profile of the doctors/dentists.
- Opening hours of the clinic can now be listed in three different sessions. If the doctors/dentists are on leave during a specific period of time, they can also indicate if their clinic services are provided by other doctors/dentists.

Easier way of communication

- Doctors/dentists can provide correspondence address to the Primary Care Office of the Department of Health, such that they may receive letters and promotional materials at home/ places other than their clinics.

More user-friendly application procedure

- For new applicants, they can choose to provide basic information within a short time to finish their applications and upload soft copy of their Hong Kong Identity Card on-line. Upon successful application, they can then log in at their free time to provide more personal and practice-based information.

Invitation to enrol in the Directory

Those doctors/dentists who have not yet enrolled in the Directory are cordially invited to enrol now. Simply visit our website at www.pcdirectory.gov.hk for on-line enrolment!

We would like to solicit the support of your organization to inform your members about the new features of the Directory and encourage them to enrol.

May we also take the opportunity to thank your organisation for the support all along and wish your members and staff Happy Year of Dragon!
