Announcement from CME Subcommittee

Despite our College has submitted nearly all the 2008 attendance sheets from the organizers to the Academy for updating in the iCME/CPD (except 5 meetings where organizers still have not submitted the attendance records), a significant portion is still not updated in the iCME/CPD database. As a result, verification of CME activities from the iCME/CPD report is not reliable. We have discussed with the Academy coordinator, Mr. Ming Chan. He promised that the updating will be completed before end of February. After consultation with the Education committee Chairman and the President, the deadline for the CME return will be extended to 15 March 2009. In addition, Fellows can print out just the CME summary (first page in the iCME/CPD report) instead of all the meetings details. Please countersign on the summary sheet to confirm that the information in the iCME/CPD is correct.

Listed below are CME Category A activities organized by the HKCPaed, various paediatric societies and institutions, and selected paediatrics-focused topics.
