Message from the Editors

After several months of hard work, SARS disappeared for the time being. Experts think this deadly virus may come up again due to the close proximity of animals and humans in Southern China which acts as a breeding ground for the emergence and spread of such disease. Undoubtedly, we have to maintain our vigilance for a potential return of the virus in the coming winter. Given the improvements of the hospital facilities and surveillance system as well as the international collaboration of health authorities, we are full of confidence to face all these challenges ahead.

Message from the Honorary Secretary

At the coming AGM, the current office bearers of our College will step down. I am writing to inform Fellows of the importance of the coming AGM and to solicit your active participation in the nomination for the posts of President, Vice-President, Honorary Secretary and Honorary Treasurer. The date of the upcoming AGM is **22 November 2003** and will be held at the Hong Kong Academy of Medicine, Jockey Club Building in Wong Chuk Hang. I look forward to meeting you all at the next AGM.

College Submission to SARS Expert Committee

During the SARS epidemic, our paediatricians had made significant contributions to the children and their families in Hong Kong by caring for them in the community and in hospitals, as part of their regular work or as volunteers. In fact some colleagues and their friends have committed to

continued support for children who lost one or more parents because of SARS. Our College thought it appropriate to reflect to the SARS Expert Committee the difficulties facing children and their special needs should there ever be another such outbreak, so that they could receive optimal medical and psycho-social care. The letter submitted can be found in **Appendix I**.

The 10th Anniversary of the Academy

This year marks the 10th Anniversary of the Academy. To celebrate this occasion, a 10th anniversary congress entitled "New Challenges in Healthcare" will be held from 28 to 30 of November. Plenary speakers include Prof. Carol Black, President, Royal College of Physicians, Prof. Sir David Todd, Founding President of the Hong Kong Academy of Medicine, Prof. Zhu Chen, Director of Chinese National Human Genome Centre at Shanghai, Prof. Nick Wright, London Research Institute, Prof. Arthur Li, Secretary for Education and Manpower, HKSAR, and Prof. Richard Scheffler, Director of Petris Centre for Research Health Policy, USA.

Symposia topics cover Common Asian Cancers, Life-style Diseases, Cancer Screening, Moving On-Transition of Chronically Ill Adolescents from Paediatrics to Adult Health Care, Emerging ENT Problems, Cardiovascular Diseases, Financing Health Care: A Global Challenge; Emergency Medicine, Traditional Chinese Medicine, Molecular Medicine, Mental Health, New Challenges in Dental/Oral Health; Sexual and Reproductive Health, Eye; Geriatric Health and Osteoporosis, Infectious Diseases and Psycho-social Health. Both

Academies of Medicine in Malaysia and Singapore will also take part in this congress. Please check out more details from the Academy website:
<http://www.hkam.org.hk/nch/index.html>.

Deadline for early bird registration: 1 September 2003

Deadline for papers: 15 September 2003

Congratulations

On behalf of the Hong Kong College of Paediatricians, we would like to congratulate Dr. CHOW Chun Bong on being awarded the Bronze Bauhinia Star and Dr. LEE Ka Yan, David the Medal of Honour of the Hong Kong S.A.R. on 1 July 2003 and Dr. AU YEUNG Cheuk Lun, Henry and Dr. LAM Ching Choi appointed a Justice of the Peace on 1 July 2003.

We also wish to congratulate the following Members for passing the Exit Assessment in June 2003:

Dr. Chan Chun-Wing

Dr. Cheng Yan-Wah

Dr. Chow Pak-Cheong

Dr. Chow Pok-Yu, Michael

Dr. Hui Ning-Tat, Hamilton

Dr. Hon Kam-Lun, Ellis

Dr. Kwong Kar-Shun, Wilson

Dr. Mak Pui-Yee, Pauline

Dr. Wong Kwok-Wan

Dr. Wong Siu-Chun, Mabel

Dr. Wu Chun-Bun, Benny

Accreditation Committee

Associates, Members and Fellows are requested to be familiar with the procedures for the Retrospective Accreditation of Training in Paediatrics which has been formalized by our College. Information on the procedures for Application for Retrospective Accreditation of Training in Paediatrics can be obtained in the College's website under Section of "Special Announcement".

Associates and Members are reminded that application for prospective accreditation of individual training both local and overseas should be submitted at least 3 months before the commencement of training. Associates and Members should consult the Accreditation and Training Guidelines on the College website.

HM Lui Fellowship

The HM Lui Fellowship for the year 2004 is now open for application. The aim of the Fellowship is to promote postgraduate study and research in liver diseases and related disciplines in children. The deadline of application is 31 October 2003. Please refer to **Appendix II** for details.

Update Series on Child Health 2003

The first session of Update Series on Child Health 2003 will be held on 6 September 2003. This series is intended for continuing education of paediatricians, paediatric nurses and child health workers and is jointly organized by the Hong Kong College of Paediatricians and the Hong Kong Paediatric Society. 4 monthly sessions will be organized in the coming September to December. 3 CME (Cat. A) points will be given for each session. Those interested can see the attached program and contact Ms Kwong at 28596421 for registration.

Program:

Venue: Ballroom, 3/F, Sheraton Hong Kong Hotel, Tsimshatsui, Kowloon

Time: 2:30 to 5:00pm

1st Session: 6 September 2003

(1) Infection control for SARS in hospitals and clinics by Dr Seto Wing Hong

(2) Common childhood cancers by Dr Li Chi Kong

2nd Session: 18 October 2003

(1) SARS in Hong Kong children by Dr Leung Chi Wai

(2) Mental health and a major disaster by Dr Luk Siu Luen

3rd Session: 15 November 2003

(1) Common eye problems in children by Dr Barbara Tam

(2) Attention deficit and hyperactivity in children and adults by Dr Eunice Wong

4th Session: 6 December 2003

(1) Recent advances in medical genetics by Dr Lam Tak Sum

(2) Childhood diabetes by Dr Elaine Kwan

Joint Scientific Meeting with Hong Kong College of Physicians 2003

The Joint Scientific Meeting of Hong Kong College of Paediatricians and Hong Kong College of Physicians will be held on 11 (Saturday) and 12 (Sunday) October 2003 in the Hong Kong Academy of Medicine Jockey Club Building. The theme for this meeting will be “**Back to Basics**”. The topics to be delivered by speakers from our College are as follows: Respiratory Allergies (Dr. T. F. Leung, PWH), Free Radical Diseases in Neonate (Dr. P. T. Cheung, QMH) and Kawasaki Disease in children (Dr. L. Y. So, PYNEH). Details of the full programme will be announced in due course. Please mark this important date in your diary.

Hong Kong College of Paediatricians Foundation Cambodia Medical Mission Trip

All Fellows & Members of Hong Kong College of Paediatricians and Hong Kong College of Paediatricians Foundation are welcome to join this meaningful project in Cambodia. Attached please find a tentative schedule for information (**Appendix III**).

Date: 29 September – 4 October, 2003

Objective: The main aim of this trip is to assist Dr. F. Castro in his medical work and to provide consultation to patients in poor location areas. In addition to the above, we are also planning for the following:

1. To give talks to medical professionals. If possible, we will invite technicians, nurses, dentists to teach them techniques such as lab tests, healthcare procedures, etc.
2. To bring and introduce medicines & medical equipments, such as microscopes, etc. to medical professionals.
3. To set up a laboratory to facilitate improved health screening.
4. To study the feasibility for further communication and cooperation.

Fees: approx. HK\$4,900 per person (airfare and accommodation)

Visa arrangement is necessary for HKSAR passport but procedures are simple, only 1 working day is required.

Deadline: 7 September, 2003 (so that we could have ample time to confirm airline booking since there is only one plane 3 times a week)

If you are interested, please do not hesitate to contact Dr. Frederick Ko, the organizer at Tel: 23911661 directly or via Christine, College Secretary at Tel: 28718871 (email: hkepaed@netvigator.com) for arrangements.

First Asia-Pacific IAAH Regional Adolescent Health Congress “Towards Healthy Adolescence: Intersectoral Collaboration” Hong Kong, 2004

Organizers: Hong Kong College of Paediatricians, School of Nursing, the Hong Kong Polytechnic University and Hong Kong Paediatric Nurses Association

Date: 10 to 12 January 2004 (Saturday to Monday)

Venue: Jockey Club Auditorium, the Hong Kong Polytechnic University

CME: Cat A 3 points for half day session, Cat A 6 points for whole day session, and total 18 points for the whole programme.

Please refer to **Appendix IV** for details of the programme.

Enquires: Ms. Esther Lau

CME Subcommittee

Fellows may be aware that the Medical Council resolved in March 2002 that CME would be made a requirement for all practising doctors, starting from January 2005.

It is anticipated that a 3-year practising certificate would replace the existing 1-year certificate effective from January 2005 and that the specialist CME would be required for renewal of Practising Certificate. As such, the Academy Council has decided to synchronize the CME cycles with the duration of the practising certificate. The Academy

Council agreed that all CME cycles for existing Fellows shall start afresh from 1 January 2005. In order to achieve this end, CME cycles started within 3 years before 1 January 2005 will have to be counted on a pro-rata basis. This means that if a Fellow's CME cycle length before 1 January 2005 is 1.5 years, the Fellow shall need to gain 45 CME points before 1 January 2005.

The following table shows the number of CME points each Fellow will need to obtain up to 31 December 2004 according to the date his/her CME cycle starts:

Date when current CME cycle starts / next CME cycle will start	Total number of CME points required by 31 Dec 2004	Number of Category A CME points required by 31 Dec 2004
1 January 2002	90	30
1 July 2002	75	25
1 January 2003	60	20
1 July 2003	45	15
1 January 2004	30	10
1 July 2004	15	5

Fellows are advised to take note of this arrangement, and plan their CME activities accordingly.

CME Category A Activities

Listed below are CME Category A activities organized by the HKCPaed and various paediatric societies and institutions. For the complete list of Category A activities and Category B activities, please refer to the homepage of the HKCPaed.

The accuracy of the information has been checked according to the details submitted by the responsible organizers. *Members and fellows are reminded to enquire the contact person listed below for last-minute alterations.*

14 July 2003

Dr. E K Yeoh, J.P.
Secretary for Health, Welfare and Food
Chairman,
Expert Committee on SARS,
Room 1808, Murray Building,
Garden Road,
Central, Hong Kong.

Dear

Expert Committee on SARS

In response to the invitation for public submission on the SARS outbreak, the Hong Kong College of Paediatricians would appreciate your Committee's considerations of the followings with regard to children in the prevention and management of possible future outbreaks of SARS or similar infectious diseases.

We are aware that the Government is renovating public hospitals to provide additional respiratory isolation facilities in case of future outbreaks. Although during the recent episode, the younger children generally fared better than the adults, the adolescents behaved much the same way as their adult counterparts. It is difficult to predict the behaviour of future epidemics of similar or different infectious agents. As children under 18 years comprise one fifth of our population, it is important to include provisions for children in the enhancement of isolation facilities for the care of suspected and confirmed cases of infectious diseases. It is also an opportune time to look into the allocation of space in all children's wards to avoid cross infection where normally the wards have to cater for both the child patients and their parents.

As children are immature, growing and developing, they have special needs especially during hospitalization. Day to day, they depend very much on their carers, whether their parents or hospital personnel. Hence it is important that there is an appropriate staffing ratio for children especially under isolation conditions when supervision and monitoring would be expected to be more difficult, and infection control precautions would slow down all therapeutic procedures. The psychosocial needs of children in hospital, accentuated by prolonged periods of isolation or quarantine, have to be addressed. Provision of information appropriate for the age of the child is important. There needs to be special consideration for the visiting policies for children. Their need for education and recreation/play also requires attention. The suspension of volunteer services in hospital brings out the importance of having regularly employed hospital play workers/therapists.

As the importance of infectious diseases has re-emerged, with potential serious consequences, the training of paediatric staff, both medical and nursing in infectious diseases, infection control and intensive care needs enhancement both in number and in depth.

Infectious diseases are of course best prevented obviating the need for treatment or hospitalization. It is opportune that our College has foreseen the benefit of strengthening the training in community paediatrics in revising our training curriculum and requirement. The recent trend of establishing Health Promoting Schools should be encouraged and supported so that both the students and the schools will be ready for any health challenge such as SARS.

We look forward to work hand in hand with the community and the Government to improve the health of our children and build a healthier Hong Kong.

With kind regards.

Prof N K Leung
President
Hong Kong College of Paediatricians

Hong Kong College of Paediatricians
H. M. LUI Memorial Fund

The Hong Kong College of Paediatricians established the H. M. LUI Memorial Fund in Year 2001 to promote postgraduate study and research in liver diseases and related disciplines in children.

Applications are invited for the H.M. LUI Fellowship, which will be awarded annually to those who are able to meet the following minimum criteria:

THE H. M. LUI FELLOWSHIP

The H. M. LUI Fellowship will be awarded to paediatricians (or medical graduates) of ethnic Chinese origin aged below 40 years, including but not exclusive of the residents of Hong Kong SAR and of the Mainland of China, for education, training and research in the United Kingdom in paediatric hepatology in Year 2003-2004.

The award of the Fellowship will consist of:

1. An air passage by the most economical route.
2. Monthly allowance of HK\$10,000.
3. Reimbursement of course fees and books up to HK\$6,000.

The award of the Fellowship shall be for a period of six months. Application must be made by nomination by the Head of the Department of Paediatrics or Hospital Chief Executive. **The deadline of application is 31 October 2003.**

Enquiries and application forms are available from Mrs. Christine Leung, College Secretary of the Hong Kong College of Paediatricians at Room 808, HK Academy of Medicine Jockey Club Bldg., 99 Wong Chuk Hand Road, Aberdeen, Hong Kong. Tel: (852) 2871 8871 Fax: (852) 2785 1850 Email: hkcpaed@netvigator.com or visit our website: www.paediatrician.org.hk.

CRCHKSM Cambodia Medical Mission Trip 2003

Proposed Daily Schedule Phnom Penh, Cambodia

Duration: 29 September – 4 October 2003

- Objectives:
1. To assist Dr. F. Castro in his medical work and to provide consultation to patients in poor location areas around Phnom Penh.
 2. To give talks to medical professionals. If possible, we will invite technicians, nurses, dentists to teach them techniques, such as lab tests, healthcare procedures, etc.
 3. To bring and introduce medicines & medical equipments, such as microscopes, etc. to medical professionals.
 4. To set up a laboratory to facilitate improved health screening.
 5. To study the feasibility for further cooperation.
 6. Sightseeing at Angkor Wat and other locations

Accommodation: Intercontinental Hotel (6-star Hotel)

Cost: approximately \$4,900 (to be confirmed in mid-August depending on airfare)

First Day :

**29.9.03
(Mon)**

8:00am	Departure from HK by Dragon Air (KA 200).
9:40am	Arrival Phnom Penh
	Transfer to Hotel
12:00 noon	Lunch
2:00pm	Familiarization Visit to:
	1. Tuol Sleng Genocide Museum and
4:30pm	2. Royal Palace/ P. Thmey
6:00 pm	Dinner
7:00pm	Further orientation and fellowship

Second Day :

**30.9.03
Tue**

	ANLONG KONG Relocation Area
6:30am	Breakfast
7:00am	Briefing
7:30am	Van leaves Hotel to Anlong Kong/ Cheung Ek
8:30am	Begin work: Free Clinic (snacks at 11:30 am)
1:30pm	End of workday
2:30pm	Late Lunch at Bamboo House (Filipino Restaurant)
3:30pm	Visit the National Pediatric Hospital, including discussion/ case conference etc. with doctors.
	Afterwards pass by Psar Thmey

6:30pm Back to Hotel
 7:30pm Dinner
 8:30 pm Discussion

Third day:
1.10.03
Wed.

ANLONG K'NGAN Urban Poor Relocation Area
 6:30am Breakfast
 7:00am Briefing
 7:30am Van departs Hotel to Anlong K'ngan
 8:30am Begin work (Snacks at 11:30 am)
 1:30pm End of workday,
