## From the Editors

Dear Colleagues,

The 8<sup>th</sup> Annual General Meeting was held on 4 December 1999. Five Council members were elected. The new Council and the Standing Committees are introduced in this issue.

The 3<sup>rd</sup> Guangdong-Hong Kong Paediatric Exchange Conference will be held on 17 June 2000. Members are encouraged to join this academic and social function. Details and abstract forms are available in this issue and also on the College Website.

# 8<sup>th</sup> Annual General Meeting

The 8<sup>th</sup> AGM was held on 4 December 1999 at The Hong Kong Academy of Medicine Jockey Club Building. 37 new Fellows were admitted at the meeting. Presidents of the Academy and various Colleges were invited as guests of honour at the ceremony. The members and guests enjoyed a delicious dinner in the gorgeous Grand Hall. This was followed by a ceremony of Honours Presentation to Fellows and guests who have donated to the College Foundation. The annual reports can now be viewed on the Website.

# Critical Appraisal Workshop

Do you feel at lost with the tremendous number of publications and the increasing number of journals? How do we interpret the results of these studies? The trainees are required to take the Exit Assessment before admitted as Fellows. Critical appraisal of papers is now a compulsory part of the assessment. This may be new to some trainees and also trainers. The College will organise a Critical Appraisal Workshop in April this year. A workshop for trainees will be held on 27 and 28 April, and a workshop for trainers on 29 and 30 April. The details will be announced later.

# 3<sup>rd</sup> Guangdong – Hong Kong Paediatric Exchange Conference

Take a break at the weekend on 16-18 June 2000! Those who have participated in the previous two conferences would certainly keen to join this academic and social exchange again. Those who have not joined before, don't miss the chance this year. The details and reply forms are attached in Appendix 1 and also on the Website. Start preparing your presentation and send in the abstract before the deadline.

# Hong Kong Academy of Medicine – Second International Congress

The Academy will be hosting the Second International Congress on 2-5 November 2000. Come to support our Academy!

## Non-Fulfillment of CME Requirements

The College would like to remind the Fellows that Non-fulfillment of CME requirement may lead to Fellowship termination. Remediable measures for non-compliance of CME requirement is enclosed in the Appendix 2.

## **Announcement**

## Message from the CME Subcommittee

Please note that with immediate effect, all applications for all categories of CME accreditation should be sent to the College Secretariat (Ms Christine Leung) at Room 808, The Hong Kong Academy of Medicine Jockey Club Building, 99 Wong Chuk Hang Road, Aberdeen, FAX no. 28751850, Tel no. 28718871. We hope that our Fellows and organizers of meetings will find this arrangement convenient. However we urge you to apply as early as possible to avoid delay in processing the accreditation.

# Message/Reminder from the Membership Committee

The Membership Committee would like to remind all readers especially Chiefs of Service and Training Supervisors of all training units to ensure that their trainees have applied for Associateship and Membership as soon as they are qualified. Their Basic and Higher Training will be recognised only if they are Associates and Members respectively of the College.

Late applicants will be subjected to a penalty.

**Other Announcements** 

Our College secretary, Mrs Christine Leung, will take maternity leave from 1 March 2000 onward and she will resume duty on 18 May 2000. A new staff, Ms Jenny Chan, has been recently recruited to help in the secretarial work. The secretariat office may be reached on Monday to Friday: 09:00am – 5:00pm

Saturday: 9:00am – 1:00pm E-mail: <a href="mailto:hkcpaed@netvigator.com">hkcpaed@netvigator.com</a>

## **Obituary**

We are shocked to hear that two senior fellows of our College passed away after some months of illness.

#### Dr Antia Chan Mui Kwan

I have known Anita since 1973 when she joined the Paediatric A Unit of Queen Elizabeth Hospital as a house-officer. Since then, we had worked closely till she passed away on 1 October 1999.

Whether as a Consultant Paediatrician in the Caritas Medical Centre or as a private practising Paediatrician, she was loved by all her patients, colleagues and staff of the paediatric units. Anita was sincere to her friends, always ready to listen and willing to help. Her advice was timely and appropriate. On hearing of her fatal illness, her patients wept and the staff of the Paediatric Unit of Baptist Hospital took turn to prepare nutritious soup for her every day. Her sick-bed was often surrounded by visitors. A smile hung on her face and in her, we witnessed dignity, peace and certainty of her future. She had dignity because she presented her best on seeing her friends. She had peace because she slept well even with pain. She had certainty because she knew where she was going --- to Heaven with Jesus Christ in His Glory.

She is survived by her husband, Frank Keung, her daughter, Chi-Lin and her son Chi-Wai. They will always remember her as a caring wife and a tender-loving mother. Video records of the many tours they went on together would be forever cherished. Frank told me that the lawn-bowling friends were missing Anita's participation at the week-ends. In return, I told Frank that we, doctors practising in Argyle Centre, deeply missed her company at our breakfast discussions in the basement of the building.

Someone has said, "When nature removes a great woman, people explore the horizon for a successor, but none comes and none will. Her class is extinguished with her". That is the case here. There is

no-one resembling her around today and we are poorer as a result.

### Dr Anita Li Ming Cheng

Dr Antia Li Ming Cheng, a senior paediatric fellow of our College passed away on 8 December 1999 after some months' illness. It was undoubtedly a great loss not only to her husband Mr Chen Tu-Suen and her family, but also to the community especially to the paediatric community.

Dr Li's illuminous academic and professional career is well known. She was one of the earliest mature medical students who entered the medical school after completing a master degree in USA. She was one of the rare women-students who were not deterred by raising a family and was able to graduate the medical school with flying colours, gaining many distinctions including even in Surgery, in the days when the discipline was dominated by men. She was among the rare breeds of seniors who were able to earn a doctorate degree (Doctor of Medicine) from the University of Hong Kong through years of research work and distinguished achievements.

Dr Li's was one of the pioneers in paediatric haematology-oncology work in Hong Kong. She was a most caring and dedicated paediatrician. Of the many major contributions she had made, Dr Li should be most proud of the initiation of the "Hong Kong Cooley's Anaemia Association" in 1981. It was the first and the most effective patients' self-help group in Hong Kong, established long before those concepts as "self-help" and "patients' rights" had even crept into the Hong Kong culture. Dr Li had also helped to promote various aspects of child health work. Her educational commitments had extended way beyond her teaching role as a University Senior lecturer, she had contributed significantly to propagating child health education through her long and dedicated services with the Hong Kong Paediatric Society where she was president and also an Honorary Life Member.

Her self-less dedication to work for the welfare of her patients and their parents has left with us a best role-model to follow. Her perseverance and courage to face various challenges will be the virtues we all yearn to possess. Her outstanding contributions to the children and the paediatric community will be sadly missed but long remembered. To Dr Anita Li's husband and Family - our college would like to offer our deepest condolences.

# Third Guangdong-Hong Kong Paediatric Exchange Conference jointly organised by

## the Hong Kong College of Paediatricians and

## the Guangdong Paediatric Society, Chinese Medical Association

The Third Guangdong-Hong Kong Paediatric Exchange Conference jointly organised by the Hong Kong College of Paediatricians and the Guangdong Pediatric Society will take place on Saturday 17 June 2000. There will be twelve keynote speeches given by invited speakers from the two organisations and a poster session. The Organising Committee is still working on the venue, and very likely it will be a scenic spot somewhere at Pun Yue. The detailed programme still has to be finalised, but the travelling arrangement would be similar to that of the previous two meetings as follows:

Friday 16 June, afternoon Journey to conference venue by coach

Check into a luxurious hotel in the evening

Saturday 17 June Whole-day conference

Sunday 18 June Sight seeing in the morning, journey back to Hong Kong by coach in

the afternoon

The Conference is an important occasion for academic and social exchange between paediatricians in Hong Kong and Guangdong, and the College counts on you for your support to make it a success. Fellows, members or associates who wish to participate should complete the reply slip attached and fax it to Prof TF Fok, Department of Paediatrics, Prince of Wales Hospital, Shatin (Fax 26489134). Abstracts of their presentations should be submitted to Prof Fok by mail or by Fax latest by 10 April 2000. Please also send a computer copy (Microsoft Words) of the abstract to Prof Fok either on disk by mail or as an attached file by email (taifaifok@cuhk.edu.hk). Participants will be fully or partly sponsored for their travelling expenses and accommodation, depending on the availability of funds. Priority will be given to those whose abstracts are selected for poster presentation. The rest will be considered on a first come first served basis.

## Appendix 2

## **Non-Fulfillment of CME Requirements**

## 1. Retired from active practice

The Academy will inform the Medical Council that these Fellows do not fulfil the CME requirements but will allow them to keep the Academy Fellowship.

A Fellow will be regarded as having retired from active practice only if he/she:

- (a) has formally submitted a written declaration to the College that he has retired from active clinical practice; AND
- (b) has ceased to obtain a practising certificate from the Medical Council of Hong Kong.

A Fellow who subsequently resumes active clinical practice (or obtains a practising certificate from the Medical Council) will be required to make up for CME points as if he/she has never retired.

### 2. Remediable non-compliance

- (a) Fellows must:
  - 1) have achieved not less than 60 points within the cycle, OR
  - 2) be certified to have suffered from a medical condition which Council considers as a reasonable cause for the CME non-compliance.

The Academy may, at its discretion, accept other conditions if supported by Colleges on reasonable grounds.

- (b) These Fellows must engage in a remedial programme to make up for the deficiency.
- (c) The reasons for non-compliance and the remedial CME programme must be endorsed by the Education Committee.
- (d) The remedial programme must be finished within the time specified by the appropriate College. In any case, the remedial programme must be finished within 12 months from the time of decision.
- (e) The next CME cycle of these Fellows should follow immediately after the previous cycle without any break. In other words, these Fellows will have to undergo normal and remedial CME at the same time.

## 3. Non-compliance that are not remediable

The Academy will inform the Medical Council that these Fellows have not fulfilled the CME requirements. Upon reviewing each case, a recommendation for Fellowship termination will be made. Reinstatement of Academy Fellowship shall be (a) at the discretion of the Council, and (b) upon payment of fees as determined by the Academy from time to time, and (c) subjected to requirements including remedial CME and/or reassessment as determined by the Academy from time to time.
