Neonatal resuscitation program (NRP) Provider course

Neonatal resuscitation program (NRP) is an evidence-based simulation training to improve the resuscitation of the newborn. The causes, prevention, and management of mild to severe neonatal asphyxia are carefully explained so that health professionals could develop optimal knowledge and skill in resuscitation. This is the first American Academy of Pediatrics (AAP) accredited NRP courses outside US.

Topics included:

- Overview and principles in neonatal resuscitation
- Initial steps in neonatal resuscitation
- Use of resuscitation bag, mask, neo Puff and Oxygen blender.
- Chest compression
- Endotracheal intubation and Laryngeal Mask Airway (LMA) insertion
- Medication and Umbilicus Venous Catheterization (UVC)
- Specials consideration
- Resuscitation of baby born preterm
- Simulation Scenarios
- Team dynamics in neonatal resuscitation.

Teaching team: Neonatologists, Pediatric Nurses and Midwives.
