Dr. Khalid Hussain qualified from the University of Glasgow (Scotland UK) and trained in neonatology, metabolic medicine and endocrinology at Great Ormond Street Children's Hospital in London and in Monash Medical Centre, Melbourne Australia. He is currently a Reader in Paediatric Endocrinology at the Institute of Child Health and Honorary Consultant in Paediatric Endocrinology at Great Ormond Street Childrens Hospital.

His research interests focus on understanding the genetic mechanisms of hypoglycaemia, understanding how hypoglycaemia leads to brain injury and understanding the developmental biology of the pancreas. He is the clinical lead for the hypoglycaemia service at Great Ormond Street Children's Hospital. He has published more than 150 peer reviewed papers in the field of metabolic endocrinology.

His research is funded by the Wellcome Trust, Medical Research Council, Great Ormond Hospital Charity, Biomedical Research Centre, Diabetes UK and the Hyperinsulinism Fund.
